

United in Diversity,

By Andrei Stanciu

We are born free as the birds
With no money but our thoughts
Our only sight in black and white
Is when we stare into the night

What if you will wake one day
With your sight taken away?
And how hard will be for you
When the sound's avoiding you?

Ref: United we can change the world
Let's take action and be heard
Get past through the aspect's limit
And judge people by their spirit

We live in a world of color
Yet the skin is still a matter
Let the past be just the past
And build something new to last

Let the money be a paper
And the wealth be just a vapor
'Cause the valor in your life
Stands in change not in delight

Ref: United we can change the world
Let's take action and be heard
I don't want to die in vain
Without a change linked to my name
